Kate Brown, four children, father dead.

Matilda Morilli, three children, father dead.

Adeline Allen, five children, abandoned by father.

Each of the children included in the applications was granted $6.25 per month, which amount will be paid by the State.

A report was received from Inspector James Downey recommending that five new lights be installed in the Colma Lighting District in addition to the nine lights heretofore recommended.

On motion of Casey, seconded by Brown the report was accepted and the light company notified to install the additional lights.

Two petitions signed by San Bruno residents were presented, one asking that Sylvian avenue be opened from Huntington Park to San Bruno and the other asking the board to open Angus avenue.

Emile Luttringer addressed the board in favor of Sylvian avenue, stating that it would, if opened, serve the greatest number.

Casey stated that he had conferred with the officials of the two railroads in an effort to acquire a right ofway across the tracks of both for the extension of Sylvian avenue and he thought it would be granted.

On Motion of Blackburn, seconded by Casey, the matter was referred to the district attorney with the request that it be reported on at the next meeting.

Hall C. Ross, representing the Beresford Country Club, appeared on behalf of that organization in the proceedings taken to close Moran road. Mr. Ross explained that the road in question had never been used and that the club has laid out a new road which would meet with the needs of the public. Brown gave his consent to closing the road on the ground that it was not made use of and that a new and better road would be provided.

A resolution closing and abandoning the road was adopted on motion of Brown, seconded by Blackburn.

Ordinance No. 255 declaring the road closed was adopted on motion of Brown, seconded by Blackburn.

A communication was received from the organized electricians of the county containing suggestions for a county ordinance to regulate house electric wiring. The communication was accepted and referred to the district attorney.

Fred Callbright sent a communication offering to paint the court-house flag pole one coat and gild the ball at its top for $25. The communication was accepted and filed.

A communication from the committee on state building for the 1915 exposition was referred to the county exposition committee on motion of Brown.

S. D. Merk of Burlingame stated that a committee of three consisting of himself, L. P. Behrens and H. C. Tuchsen had been appointed by the County Development Association to meet with the board and discuss the proposed road bond issue. He asked that a date be set for the conference.

On motion of Blackburn, it was decided to meet the committee at the next meeting, July 15th, at 1:30 o'clock.

Adjourned for the noon recess.

Afternoon Session

The board reconvened at 1:30 o'clock, all of the members answering the rollcall.

Attorney Harry E. Styles made an application on behalf of Louis Meretti, Joseph Bourcq and F. C. Brown for permission to maintain a hog ranch on what is known as the Brewer Island on the bay shore at which from 1000 to 5000 hogs shall be kept.

On motion of Brown, seconded by Blackburn, the application was referred to Supervisor Brown and the district attorney to be reported on at the next meeting.

On motion of Brown, seconded by Blackburn, the janitor was directed to decorate the courthouse for the fourth of Juy.

Brown stated and asked that it be paced on record that the city of Hillsborough had discharged its obligation to the county to date in the payment to the Second road fund of the amount of money it had contracted to pay.

Casey stated that the parties that had stolen the motorcycle belonging to Officer Lowans of the First township had been apprehended by the authorities and the motorcycle recovered, but it was unfit for use. He had purchased a new machine.

City Councilman C. J. Hynding appeared before the board and stated that steps had been taken to macadamize and oil a section of the streets of Redwood City, included in which are those surrounding the courthouse. He asked the board to adopt the specifications adopted by the council.

Mr. McEvoy stated that he had experimented with oil in the making of roads and found the results very discouraging.

Hynding explained the class of work to be done and assured the board that wherever oil had been used in Redwood City, the results were quite satisfactory. The object of the council was to build such streets as would not be too great a burden on the property owners.

The board assured Mr. Hynding that it was its desire to give the public good streets around the courthouse and at the same time avoid causing the adjacent owners needless expense. If the oiled streets proved satisfactory the county would adopt them. It was agreed to allow the city to build some of the streets in the district before coming to a decision.

Assessor C. D. Hayward presented the county assessment rolls which showed the following valuations:

First township	$ 6,047,330 00	
Second township	2,821,260 00	
Third township	6,473,675 00	
Fourth township	1,869,885 00	
Fifth township	948,640 00	
		18,160,790 00
City of San Mateo	$ 3,112,455 00	
Redwood City	1,486,310 00	
City Burlingame	1,794,185 00	
City Hillsborough	2,514,900 00	
City So. San Fran.	1,069,495 00	
City of Daly	662,490 00	
		10,579,835 00
Total valuation for 1912		$28,740,625 00
Total valuation for 1911		28,306,185 00
Increase for 1912		$ 434,440 00

The assessor explained that the amount of $932,308 had been deducted from the county's assessed valuation on account of the law which makes corporations exempt from county tax.

The assessment rolls were accepted on motion of Casey, seconded by Brown, and the clerk directed to publish notice that the board will meet as a board of equalization up to and including July 15th.

R. F. Chilcott presented a petition asking the closing of portions of the streets and avenues in Subdivisions 1 and 2 of San Carlos Park, it being the intention to establish new streets acceptable to the public.

On motion of Brown, seconded by Blackburn, the matter will be heard at the next meeting, July 15, and the clerk was directed to publish notice to that effect.

The board then adjourned and reconvened as a Board of Equalization and again accepted the assessment rolls of the county.

BOOSTING
Your Home Section
Boosts Your Income
Ever Think Of It?

If you haven't joined the Board of Trade and got ready to boost for a bigger and livelier Redwood City, now is the time to do it. If you expect your city to move up, you must help push.

The presence of Admiral Osterhaus and his small fleet in Havana harbor had a decidedly quieting effect on the Cubans. Uncle Sam does not mean intervention and conquest half so much as he means peace and business.

ADHERENCE TO PARTY.

From its earliest history this county has been governed by political parties, to one or the other of which the great mass of its citizens have given their allegiance. Yet, in the nature of things, it can hardly be expected that the adherents of any great party shall be satisfied with all its candidates or policies. Large masses if men cannot be of one mind as to all details or particulars. They can, however, cooperate on fundamentals.

They may be great differences of opinion as to men and measures, and even strenuous contention as to matters of policy, and yet there need be niether break nor bolt. There must be mutual concession as to minor matters or there can be no unison of action among large masses in any movement.

The ambitions of individuals, the rivalries of leaders and the selfish interests of factions must be held subordinate to the common good. If there must be battles—and these seem inevitable—let them be fought out in the party itself, and when the issue is decided let the dissention cease and all fall into line to battle against the common foe.

This is the sum of party regularity. If a man will stay with his party only so long as it will go his way in all particulars, he is either very selfish or very stuid—either a bigot or a weakling. He will soon find himself to be in a party by himself, for the bolt has never been popular in politics. It has never been successful in achieving anything but mischief. As a rule the bolters disable and distroy themselves, the only satisfaction they get being the harm they may do to the party they have left.

THE OLD GUARD IN POLITICS.

If there had been a sufficient amount of chloroform on hand, and if Dr. Osler's theory could have been accepted, the colonel might have won a sweeping victory at Chicago, says the St. Louis Globe-Democrat.

If Senator Root, who presided so ably and impartially that even the third term men, finding fault with nearly everything, have not been able, even to this day, to find fault with his rulings, had been chloroformed at the expiration of the Doctor's time limit, a younger man with a less seasoned head could easily have invited a wreck. As it is, the cause triumphant in his selection as temporary chairman is triumphant in the total result of the work of the convention, with the one most dissenting figure seemingly up in the air, unable to concentrate his scattered forces at any point of action, and wholly unresolved as to what course he himself shall take.

And the presiding officer was but the type of many men to be found in many delegations, or of such high rank in party counsel as to be called into conference, whose intelligent and courageous work broke the force of the strongest wave against party and patriotic tradition which ever threatened to overwhelm a party in our politics. Their physical and mental vitality met every test.

But even more valuable in such an emergency, was their accumulated experience of years of active participation in public life. Experience gained and lost is the most empty thing under the heavens. It is as the thing that never was. But the experience of a long life which falls upon a strong and active mind, capable of grasping it in its completeness, holding it, and turning it into the wisdom of a larger equipment for future stsuggle, is the wisdom of the ages.

The term "Old Guard" has grown into our politics through the natural feeling of voters in a party to look to men grown gray in its service and whose many victories have inspired their confidence. Because of this trust, men not gray, except as the donkey is by nature's laws ordained, have sought to misuse this name. It has been profaned by charlatans, and soiled by much ignoble use. In such a victory of old men as the turning back of the tide at Chicago has shown us, the title of "Old Guard" is rescued from reproach. History, as always, has repeated itself only in part. A presumptuous Napoleon met a Waterloo, but the "Old Guard" fought against him.

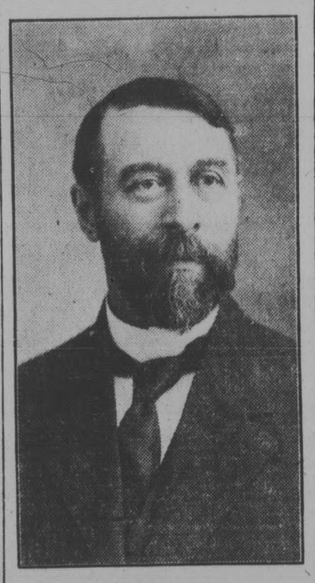
Distric t Attorney Swart has filed a notice in the clerk's office giving notice that he will on July 18th apply for a new trial in the case of the Abbey Land and Improvement Co. against Mount Olivet Cemetery Association. The case was decided recently in favor of the company by Judge Buck.

HON. E. A. HAYES STATES POSITION

Announces Continued Adherence to Republican Party and Explains Situation

Mr. Editor:—Permit me through the columns of your valuable paper to address a few words to my constituents in your locality. My friends in different parts of the Eighth congressional district have sent me inquires as to whether I would be a candidate for re-election to Congress for another term. Instead of writing to each one of these friends individually, take this method of announcing, not only to them, but to the voters of the Eighth district generally that I intend to be a candidate at the coming election for renomination and, if nominated, for election as a Representative i n Congress from the Eighth district.

I have come to this decision, prompted not alone by my personal desire, but also because I believe that after my apprenticeship of eight years of active service I can serve the people of the district and our state better than any man without congressional experience. In the next Congress there is sure to be a revision of a part if not all the schedules of the present tariff law, no matter what party is successful. This revision will profoundly affect the large business interests of our state, the very existence of some of them depending upon thier receiving adequate protection and fair treatment in the new tariff law. A new man can do little or nothing to secure this protection or fair treatment. He knows no one here and no one knows him. A first-timer can do very little for his district. He only becomes valuable after he "learns the ropes." Not only in the matter of the tariff do I believe that I can be more valuable than any new man, but I know that I can secure for the district and help to get for our state valuable things that a stranger could not.



HON. E. A. HAYES
Who Asks Reelection to Congress

I think my attitude as a member of Congress is in some places misunderstood. Being a Republican and subscribing to the principles of the Republican platform I have always supported by my voice and vote Republican policies, but in all other things I insist upon being absolutely independent. Were it practical for me to learn the wishes of a majority of my constituents as to how any measure or policy, I should, of course, feel bound as their representative to execute their mandate, but since in most cases this is impossible, I have insisted, and so long as I remain a member of Congress I shall continue to insist, upon following my own best judgment and convictions upon matters coming before the House. Because I took the lead in organizing the Insurgents of the House to overthrow the oligarchy there and modify the House rules in order to allow greater individual liberty of conduct I have not therefore felt bound to go with many of those with whom I co-operated in that contest in fight against protection and other Republican principles. Because I have been and am a progressive Republican I have not felt under obligation to give my approval to every wild and unsound theory or proposal sought to be incorporated by some in the progressive program. In all those matters I have reserved and will continue to reserve the right of exercising my individual judgment. I recognize no control in these matters except the wishes of a majority of the voters of my district. These wishes when known to me will always control my official conduct. but I have allowed no boss or political machine, either in the House or out of it, no speaker, noleader or leaders, no insurgent body, no man or set of men to dictate to me how I should vote upon any measure nor what my official conduct should be in any matter. Occupying this position I have sometimes acted with one set of men in the House and sometimes with another. This course has sometimes brought upon me embarrassment and criticism, and it has often been hard and required courage to occupy this independent position; but when the time comes that I cannot occupy it, I do not longer care to remain a member of Congress.

With this short statement of my position, and asking all voters to examine my record as a member of Congress of the past eight years, I respectfully solicit the support of your readers at the coming elections.

Very truly yours,
E. A. HAYES.

ADVISORY BOARD GIVES UP ITS JOB

Tells Council Time is Too Short for Satisfactory Work on Assessment Rolls.

All of the trustees were present at the meeting of the City Council Monday evening and considerable business of general public interest was disposed of.

A permit for the sale of liquor under a restaurant license was granted to the Eureka restaurant after an understanding that no liquors will be sold with meals during the hours saloons are required to be closed.

The following report of the advisory assessment board as presented by Wm. Jamidson and read by the clerk:

To the Honorable, the Board of Trustees of Redwood City—Gentlemen: Agreeable to your request, we, the undersigned committee, styled as the "Advisory Equalization Board," held its first meeting under date May 31, 1912, with all members present. We then understood that your honorable body desired this board to equalize the assessment roll of the Town of Redwood City, and to increase or decrease existing assessments so as to make all as nearly equal as possible.

We find upon investigation that this report should be filed with your board on or before July 31, 1912, and we also note that last year's county roll was increased 20 per cent for purpose of using as town assessment roll. We are also advised that you have appointed a deputy for the purpose of preparing a new town assessment roll; that this new roll will be subject to possible revision and approval of this "Advisory Equalization Board" and that final report of this board will be subject to your approval before becoming final as basis for taxation. We desire to state that we have held three meetings as close together as possible, and it has seemed useless to proceed with the work until we could secure completed County Assessor's roll, suitable block book of city property and final report of deputy assessor. Inasmuch as the only definite basis to work upon at present is the assessment roll as prepared by the county assessor, and as this official has devoted many years to the details of this work, with the evident confidence of all tax-payers, we feel that an attempt on our part to revise the roll prepared by him and with the limited time at our disposal would only result in general dissatisfaction, as our findings could hardly be expected to be as complete and equitable to all as a roll prepared during the year. We do not feel that a general percentage raise of assessment roll as made last year would be a correct procedure, as this would eventually result in an increased assessment roll for county taxes as well, to the evident disadvantage of Redwood City, as compared to other parts of the county. We beg to advise that we are heartily in accord with your plan of organization of an "Advisory Equalization Board" and we are willing to devote a reasonable amount of time to that work if you so desire; but we believe that this board should start in at once on the preparation of the 1913 assessment roll, and that it should not attempt any adjustment of the 1912 roll. We therefore offer for your consideration tho following suggestions:

First—That the 1912 roll, as prepared by the county assessor, be used as the town assessment roll for this year, and as has been done heretofore.

Second—If additional revenue is needed for 1912 budget this additional amount should be secured by adjustment of percentage rate only, and not by flat increase of assessment roll.

Third—If equalization is desired for the future, this work should start on the 1913 roll at once, and in order to arrive at fair adjustment of values.

We trust that the above report and suggestions will meet with your approval, and in conclusion we wish to advise that we, the members of this board, do not feel that they can serve under the existing conditions in connection with the 1912 roll, and desire to be relieved of that particular duty; and we, therefore, advise you of our decision at the earliest possible moment so that you will have time to make other arrangements if you so desire. We are

Very respectfully yours, Geo. W. Lovie, E. J. Fowler, W. H. Schaberg, John Poole, M. Felton, Wm. Jameson, A. S Kalenborn.

The communication was accepted and filed after the clerk had been instructed to convey to the members of the commission the thanks of the council for the work already performed by them. Following this action the work of supervising the work of Deputy Assessor Kelso was referred to the finance committee by Chairman Merrill, with the suggestion that the committee hold at least weekly sessions for that purpose. With the present advanced state of the work it is believed this will prove ample for its completion within the time required by law.

Acting on a complaint of Manager Henry Steinger of the Frank Tannery that rubbish was being dumped along Deepwater Road and increasing the risk of fire, it was ordered that warning signs forbidding the practice be placed along the street and the Marshal was instructed to give attention to the enforcement of the ordinance which forbids the dumping of refuse in public places, with the suggestion that a few prosecutions might have a deterrent effect.

A request from the War Department for statistics as to the shipping passing over Redwood Creek was referred to the Board of Trade.

The permit granted to Oxnard & Lent to lay water pipe in Jefferson avenue was, at the request of H. C. Tuchsen, amended so as to allow the laying of the pipe within the curb lines and to provide that the pipe should remain their private property and not be used for other connections.

Owing to technical quibbles of bond attorneys over the wording of the specifications for street improvements no contractors had figured on the work and the expected bids failed to materialize. In order to avoid all question as to the regularity of the proceedings it was decided to provide for the amendment of the specifications and for this purpose a resolution was offered by Trustee Hahir and adopted rescinding the previous action. Following this new specifications were adopted and the clerk was instructed to readvertise the work, the bids to be opened July 15th.

As bearing upon the same subject Trustee Hynding stated that he had endeavored to induce the county supervisors to go on record as approving the proposed method of construction for the streets facing the county courthouse, but had met with but partial success. However he was of the opinion that eventually the supervisors would accede to the wishes of private owners along the streets.

First reading was given the new ordinance for the conduct of the water system which has been under preliminary consideration for some weeks and considerable time was devoted to a discussion of its provisions, some of which provide for new business methods. No material reduction is made in existing rates, the only change being in a slightly reduced charge to large consumers. It is provided that all bills for water must be paid by the middle of the month in which they are presented and that unless so paid a penalty of 10 per cent for delinquency is to be added, with but three days further grace before the water is shut off. Buildings occupied by joint tenants are to be charged at meter rates, with a minimum charge of $1 for the entire building.

The long pending dispute over the claims of former city engineer James V. Neuman for work on abandoned street improvement districts was finally settled by the passage of a resolution approving the settlement of the entire claims for $1,000, as proposed by Mr. Neuman through attorney Lee T. Ross at the previous meeting. The resolution provides that the warrant for the money shall not be drawn until such time as funds are in the treasury to meet the demand.

An application by the Palo Alto Dyeing works for a license to solicit within the city was referred to the Marshal, who has authority to issue business licenses upon application.

By a vote of three to two, H. T. Mansfield was elected night watchman, to fill the vacancy caused by the resignation of Jas. McGlynn.

New Actions Filed

William Debenedetti has brought suit in the Superior Court against E. R. Mitchell to recover the sum of $184.10 due on a promissory note executed in 1910.

Anna Barre has brought suit in the Superior Court for an interlocutory decree of divorce from her husband, Charles Barre on the grounds of cruelty. The couple was married in San Francisco in 1907. Plaintiff asks for council fees in the sum of $250, costs $100 and alimony in the sum of $50 a month.

The A. L. Young Machine Company has brought suit in the Superior Court against the County of San Mateo to recover to sum of $4059.20 for Acme culvert pipe furnished the Fifth township on last November. The board at a recent meeting refused to allow the claim and would not reject it. The claim has been pending before the board since the first of the year.

The Crocker Estate Company has brought suit in the Superior Court against the City of Daly City for an injunction to prevent the going into effect of ordinance number 35, and asking that said ordinance be declared null and void. The complaint alleges that it was passed by the board of trustees of Daly City last February and is arbitrary. The ordinance fixes the water rates for the town and the complaint alleges that the trustees did not use due diligence in securing proper information in fixng the rates. The company furnishes one-third of the water to the town and the rate established would practically cause it to go out of business and the plant that cost about $20,000 would be practically confiscated. The rate fixed by the ordinance is as follows: One dollar for 2500 gallons, over 2500 gallons and under 4000, 38 cents per 1000 gallons, over 4000 and under 10,000 36 cents, over 10,000 gallons and under 20,000, 34 cents, over 20,000 gallons and under 50,000, 30 cents, over 50,000 25 cents.

Charles L. Smith has also brought suit against the city to have the ordinance declared null and void. He also furnishes water to the town and his plant cost $20,000. J. W. Bloom also brings suit against the city. His plant cost $50,000 and he thinks he should receive at least ten per cent on the investment.

Manly Pinkham has brought foreclosure proceedings in the Superior Court against Alfred Banks and others to recover the sum of $2222.09. The property on which the mortgage is to be foreclosed is located in the Town of Pescadero. Plaintiff asks for cost of suit and ten per cent of the amount recovered for attorneys' fees.

COUNCIL HAS HARD QUESTION TO SOLVE

Trustees Hesitate Over Requests for Surrender of Control Over City Highways.

The question of the surrender by the city of its jurisdiction over any part of its highway for the purpose of securing outside assistance in the work of street improvement was again put squarely up to the city council at its meeting last monday evening, this time in a form which seemingly demands its solution without delay. This time the much disputed question was brought before the council as the result of the movement to bond the county for a general system of improved roads, and while the trustees devoted a considerable time to its consideration, no definite understanding on the subject could be developed.

Discussion of the subject was brought up by the presentation of a communication from County Clerk Jos. H. Nash, secretary of the mass meeting of citizens of the county called by the Supervisors to consider the report of County Surveyor J. V. Neuman, which advised the issuance of bonds of the county for a general system of roads connecting the main section of the county. The communication stated that it was the sense of the meeting of citizens that the portions of streets connecting the improved highways should also be improved at the expense of the county under the bond issue and called attention to the fact that to allow of this it would be necessary for each municipality to surrender to the county authorities jurisdiction over the required streets. Action without delay on the part of the council was urged, in order that no time might be lost in thesubmission of the question of a bond issue to the people.

Trustee Hynding was the first to voice an opinion, expressing a grave doubt of the advisability of placing any portion of the jurisdiction over city streets under any outside authority. In his opinion such action might result in grave complications in the future and possibly delay needed public improvements. At the same time Mr. Hynding question either the propriety or justice of a general county bond issue for the purpose outlined, expressing the opinion that a more equitable and satisfactory proceedure to the tax payer would be the division of the county into several districts and allowing each district to judge of its own necessities and to provide for its own expenditures.

Mayor Merrill was not inclined to fear the risk of surrender of jurisdiction, believing that within a short time general law would provide for preserving to the municipalities all jurisdiction necessary for the conduct of its own affairs over the ceded streets. Nor did he consider the question material as regards Redwood City, as in his opinion before many years will have elapsed the limits of the city will have been extended from San Carlos to Fair Oaks, and thus will include much highway jurisdiction of which had passed to the State before that time and be included in the state highway.

Trustee Deleau was rather inclined to favor the surrender of such jurisdiction as was necessary to secure the improvement of the road, believing that it was unjust to require the owners of property fronting such streets to bear the cost of their improvement and at the same time to pay with their county taxes their portion of the expense of improving county roads. At the same time he believed the city must retain such control as would provide for the unrestricted right to lay water and gas mains and similar public utilities. At the same time he felt that he would prefer further light upon the subject before taking action.

While saying that he would favor any plan which would secure for the people of the city better roads, Trustee Hahir rather hesitated to endorse the proposed action. He believed that general sentiment favored the plan of issuing county bonds and considered it but just that the city should reap a portion of the benefit as it would be required to bear a portion of the burden. At the same time he urged deliberation in a proceedure of such grave importance and suggested delay that the question might be given full consideration.

Trustee Sampson had not given the subject sufficient consideration to be ready to express an opinion. With a general expression of desire that the question be givenfull consideration and that an opportunity might be given citizens to express their desires, the final consideration of the communication of County Clerk Nash was deferred to the next regular meeting of the council. While not opposing this delay, Chairman Merrill urged that some solution be arrived at as soon as possible.

Redwood Boy Home of Vacation.

Some two weeks ago John D. McCrea spent a few hours at home. For the last fourmonths he served as chainman on a surveying party for the Southern Pacific engaged in checking up construction work on a new branch from Colusa to Hamilton. As it gets pretty warm in Colusa county in July, he took advantage of a chance to be transferred to Oregon, and is now engaged as headchainman with a party of surveyors near Walton, Lane county, Oregon, about 35 miles from Eugene. It rains a great deal and is pretty muddy, but he has enjoyed the change from the Sacramento valley. Morris Goldsmith, who graduated in the same class in the high school is rear chainman in the same party. They are likely to remain there for several months.

The Redwood City team was handed a package by the Burlingame aggregation on the Fourth, to the tune of 5 to 6.

Manager Roza of the Redwood team had signed up Pitcher Martinoni of Oakland, through Spalding's booking, for this game, but Martinoni did not materialize, which left Redwood without a pitcher.

Under the present day system of baseball, the semipro country teams are dependent, to a certain extent, upon city players and those are almost always sent out by the booking agencies, or sporting goods houses, and it is too bad that so many good games are spoiled by the failure of players to show up in the countrytowns, when they are needed, and had been hired. Spaldings and Mr. Martinoni are responsible for a great deal of disappointment on the part of the Redwood City and Burlingame fans.

Death of Portola Resident.

Mrs. Mary Jane Waters, a native of Canada, aged 56 years, died at her home in Portola on July 4th, after a long illness. She came to California 27 years ago and for 20 years has resided at the Waters home above Portola. She was a hard working and industrious woman who was beloved by all who knew her. During her long and painful illness she did not murmur but bore her burden with true Christian fortitude. Her husband, Thos. Waters, has the sympathy of all in his sad bereavement. The funeral will take place from the Methodist church this afternoon at 2 o'clock. Interment will be in Union Cemetery.

IMPOSING CHURCH WEDDING AT ST. MARY'S CATHEDRAL

Prominent Menlo Park Citizen Weds San Francisco Educator.

One of the prettiest weddings of the season was that of Miss Mary Theresa Ryan to Mr. Jas. E. Fitzgerald, which took place Wednesday morning at 9:30 in St. Mary's Cathedral, SanF rancisco.

The edifice was thronged with friends of the popular couple, several hundred invitations having been issued.

The church was brilliant in a flood of light and anunusual combination in floral decrations; the main altar being banked with white and pink carnations, surrounded by a profusion of palms and ferns.

At the appointed hour, the bridal party entered, while the organ played the beautiful Lohengrin wedding march. The bride resting upon the arm of her brother, Mr. Thomas Ryan, was arrayed in a most becoming gown of Duchess lace and satin, and carried a shower bouquet of orchids and lilies of the valley. Theonly jewel worn by the bride was a diamond pendant, the gift of the groom.

The ceremony was performed at an Nuptial Mass by the Rev. Father Jno. Byrnes, a cousin of the bride, and was assisted by the Rev. Fathers J. F. Burns, Sullivan, Connolly and Lyons of San Francisco and Father Bailey of Turlock.

The bride was attended by her sister, Miss Elizabeth Ryan, who was gowned in a corn colored creation with Irish point lace and carried Killarney roses. Mr. R. P. Shorrock of Sacramento acting as best man and Mr. O'Grady of San Mateo and Mr. A. J. Delano of Sacramento, acting as ushers.

A wedding breakfast at the Hotel St. Francis followed the ceremony, during which the usual toasts were given. Mr. and Mrs. Fitzgerald left for an extended trip through Washington and Oregon.

Mr. Fitzgerald is the only son of Thomas Fitzgerald of Menlo Park and is associated on the secretary's staff of the State Board of Harbor Commissioners.

He is one of the most prominent Native Sons of the State, having served as Grand Marshal of the Order and is also an active member of the Elks.

Miss Ryan is a graduate of the Lowell high school and the State Normal, having spent three years in the school department of San Francisco. She is also a sister of Mr. Daniel A. Ryan, the prominent attorney.

Upon their return they will reside in San Francisco, until the erection of a handsome residence in Menlo Park, the home of Mr. Fitzgerald.

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March at 12 o'clock m.

No charge can be made by the Assessor after he turnes over his books to the Boasd of Supervisors on the first Monday in July. The Board then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assesment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor as well as to yourself, to have your assessment correct when you go to pay your taxes.

GREATEST MEDICINE ON EARTH

A prominent citizen of Evansville, Ind., writes:—"I was ill for five months with a pulmonary trouble, and had the best of doctors. I had hemorrhages and was in a very bad way. Through the advice of a friend I tried Vinol, and I feel that it saved my life. It is all you recommend it to be. I believe it is the greatest medicine on earth. I have advised others to try Vinol, and they have had the same results." (Name furnished on request.)

We want every one in this vicinity who is troubled with chronic colds, coughs, or pulmonary troubles, to come and get a bottle of Vinol.

If it does not go to the seat of trouble, heal the inflammation and stop the cough, we will cheerfully return every cent paid us for it. This shows our faith, and proves that you take no chances.

CONTRACTS AWARDED FOR STATE HIGHWAY.

Contracts aggregating $295,000 for four strips of roadway to be built under the $18,000,000 State highway bond issue in Madera, San Mateo, Mendocino and Yuba counties were let last week by the State Highway Commission. The lowest bidder in each case received the award. Work must be commenced in fifteen days under the terms of the contract. The total distance of the four strips is thirty-seven miles.

F. R. Ruchie & Co., of San Francisco, was given the contract for the construction of a five and four-tenths-mile strip of roadway from South San Francisco to Burlingame, their bid being $89,368. Clark and Henry Construction Company were the third lowest bidders for this work being about $6,000 above Ruchie. The next lowest was a Denver firm.

The Ransome-Crummy Company of Oakland was awarded the contract for the construction of a ten-mile road from Madera City to Califa, Madera county, their bid being $72,091.

Two other contracts in Mendocino and Yuba counties were also let.

The bids were opened on Monday and showed twenty-nine firms contesting for the work. Nearly all of them bid on the San Mateo job which is the most expensive of the lot.

CHARLES E. KNIGHTS WILL BUILD $3000 HOME.

Another of the old buildings of Redwood City will soon go down in the march of improvement. Chas. E. Knight has awarded a contract to C. S. Thompson to erect a new residence for him at the junction of Main and Mound streets to cost $3000. It will be completed within 90 days. The building to be removed was formerly the property of the late John M. Allen. It was built by him in 1863 and for many years was a blacksmith and wheelwright shop. Mr. Knight on purchasing the property turned it into a store and residence. It will be replaced by a handsome structure. Mr. Knight is to be congratulated on his public spirit.

To Please the Palate

is our aim in serving meat—to retain the fine flavor Nature bestows, not to let it go to waste, as some meatshops do. With prolonging this true tale, it may be set down for a fact that here is to be found a first-class place to purchase beef, mutton, lamb, ham, poultry and game, to give your table good credit with household and guest.
